PROFESSIONAL SUMMARY

Front-end web developer with full stack capabilities. Recently earned a certificate in full stack development from the University of Minnesota. Continually striving to be the best that I can be whether working solo or in a team setting. Bringing someone who is detail oriented, persistent, and reliable. Strong passion for exploring the world of tech and making human interaction with it a positive experience. **It's always my goal to keep learning and exceeding expectations.**

LANGUAGES AND TOOLS

Languages: HTML, CSS, JavaScript, SQL

Frameworks/Libraries: React, Bootstrap, Bulma, Handlebars, JQuery

Apps/Packages: MongoDB, Express.js, Node, GraphQL, Insomnia, Sequelize, Jest

Deployment: Heroku, GitHub

PROJECTS

Chord Base

January 2022

<https://amber-robeck.github.io/Chord-Base/> |

<https://github.com/Amber-Robeck/Chord-Base>

- Learn how to play guitar chords. Includes instruction, diagrams, and sound buttons.
- Performed most of the styling on the front end and used a new framework (Bulma)
- Implemented the use of API's.

Employee Scheduling Tool

February 2022

<https://shrouded-anchorage-20681.herokuapp.com/> |

<https://github.com/karpx033/Employee-Scheduling-Tool>

- Streamline the process of scheduling. Employees can fill in their availability for upcoming weeks.

- Worked with database design
- Implemented handlebars within this app.

Creative Dev

March 2022

<https://glacial-ravine-72346.herokuapp.com/> |
https://github.com/tybant0427/creative_dev

- A social media/blog for software devs to share projects, games, apps they have created.
- sign-up, login, logout features of application.
- Built using React, Apollo, and GraphQL.
- Connecting front-end and back-end.

PROFESSIONAL EXPERIENCE

CONCRETE ARTS

HUDSON, WI

Cement Masonry and concrete construction

03/15 - 11/21

- Managed jobs, dealt with job supervisors and customers on a daily basis.
- Was known as the "swiss army knife" for my versatility in many different skills.
- Worked in solo and team settings.
- Managed scheduling and deadlines for job completion.
- Solved many different problems that would arise and had to make decisions on the fly.
- Had to bring persistence and be very detail oriented every day.

EDUCATION AND CERTIFICATES
